PROFESSIONAL SUMMARY

Full stack Frontend Engineer with 3+ years of development experience building high-performance web applications with React, Next.js, and TypeScript. Delivered a full platform from Figma to deployment at 5centsCDN, improving Lighthouse scores from 65 to 95+ and growing organic traffic 30% through Core Web Vitals optimisation and SSG. Built a RAG-powered AI application deployed on AWS ECS and a real-time Kanban board with Supabase Realtime — demonstrating full-stack ownership across frontend, backend, and cloud deployment. Track record of shipping independently in small, fast-moving teams. Currently deepening backend skills in Python (FastAPI) and AWS infrastructure.

WORK EXPERIENCE

Frontend Developer | [5centsCDN.net](https://5centscdn.net)

Apr 2024 – Jan 2026 · Remote · Canada

- Led full Figma-to-deployment conversion using Next.js and TypeScript, delivering a production-ready platform on schedule.
- Improved Lighthouse performance score from 65 to 95+ via React Window virtualisation, static site generation (SSG), and granular code-splitting.
- Grew organic traffic by 30% through semantic HTML, structured data markup, and Core Web Vitals optimisation.
- Built and shipped an in-house tooling suite: Image Optimizer, CDN Calculators, Stream Tester, and interactive Chart dashboards.
- Implemented complex UI animations using Rive and Framer Motion, measurably improving user engagement metrics.

Web Developer | [HolidayHub.in](https://holidayhub.in)

Dec 2023 – Mar 2024 · On-site · India

- Built CRM frontend with React, Redux Toolkit, and modular CSS, translating CEO requirements directly into production features.
- Integrated REST APIs for full CRUD operations; collaborated with backend team on database schema design.
- Improved UI performance by 30% through pagination, state management refactoring, and targeted code optimisation.

Independent Projects & Skill Development | [Self-directed](#)

Feb 2026 – Present · Remote

- Deepening backend skills in Python (FastAPI), AWS infrastructure, and AI/RAG pipeline development.
- Building and refining personal projects including DocuChat AI, Team Task Board, and PayForm Pro (see Projects section).

PROJECTS

DocuChat AI (RAG Pipeline) — *FastAPI · LangChain · Supabase pgVector · Docker · AWS ECS · SSE*

- Built a production RAG application for PDF-based Q&A with cited page references and source-transparent answers.
- Implemented token streaming via Server-Sent Events (SSE) to minimise perceived latency on AI responses.
- Dockerized and deployed on AWS ECS; containerising dependencies reduced cold-start time measurably.

Team Task Board (Mini Jira) — *Next.js · Supabase Auth + Realtime + RLS · Zustand · TanStack Query · shadcn/ui*

- Real-time Kanban board with live task updates, activity timeline, audit logs, and role-based access control.
- Implemented magic-link authentication and Supabase Realtime subscriptions; mobile-first responsive UI with GTM analytics.

PayForm Pro (Modular Payment Integration) — *Next.js · Redux · MongoDB · Webhooks · crypto-js*

- Modular React Hook architecture covering each RazorPay payment step with SHA-256 webhook signature validation end-to-end.

Curalink (AI Medical Research Assistant) — *MERN · Express · OpenAlex · PubMed · ClinicalTrials.gov · SSE*

- Transparent AI pipeline that retrieves, ranks, and synthesises insights from multiple live medical research databases in real time.

SKILLS

Core: React, Next.js, TypeScript, JavaScript (ES2022+), Tailwind CSS, HTML5, CSS3, i18n

State & Data: Zustand, Redux Toolkit, TanStack Query, Context API

Backend & DB: FastAPI (Python), Express (Node.js), REST APIs, PostgreSQL, Supabase, MongoDB, WebSockets

Cloud & DevOps: AWS EC2 / ECS, Docker, git, GitHub Actions, CI/CD pipelines

Auth & Security: OAuth, JWT, CSP, XSS / CSRF protection, Supabase RLS

Testing & Quality: Jest, Playwright, Lighthouse, Core Web Vitals, WCAG accessibility, Microsoft office

UI & Animation: Framer Motion, Rive, Chart.js, Swiper, Figma, shadcn/ui, Radix

Bundler: Vite, Webpack, babel, turbopack, bundle analyser, npm, yarn

AI / ML Tools: LangChain, Supabase pgVector, OpenAI API, Server-Sent Events streaming, Claude, Copilot

EDUCATION

B.Sc (Honours) Computer Science · Aligarh Muslim University

2023 · ~78%

RECOGNITION

Appreciation Certificate & Performance Award — HolidayHub.in · Recommendation Letter — 5centsCDN.net
